

VE Day 80 Gas-Fuelled Beacon

Bullfinch Gas Equipment

We have made many different reliable beacons over the years and details can be seen on our website. The flames are very stable in winds and the structures are also wind stable.

This beacon's burner-head is in the shape of a V, surrounded by a VE Day 80 banner. It is of lightweight construction and comes assembled and complete, with the exception of the gas cylinders, which must be purchased separately.

2 x 19kg full cylinders of propane are recommended to give a full flame for a good three quarters of an hour. If you wish for less than this then one 19kg cylinder or 2 x 13kg cylinders should be sufficient. These should be full or nearly full. The Gas Torch needed to light your beacon safely requires a 400g cylinder of propane with CGA600 fitting - Bullfinch No 1644 or Rothenberger or equivalent.

The VE Day 80 Gas-Fuelled Beacon Package contains:

- Burner unit with VE Day 80 insignia
- 2m high stand
- Ground anchor and rope for fixing the stand to the ground
- 10m hose with the regulator for connecting to the gas
- Gas torch for lighting
- Spanner
- Leak detecting fluid
- Hose assembly and Y manifold to link 2 cylinders
- Lighting and safety instructions

The above items are packed into 2 strong cartons. The tripod describes a circle area of about 1.32m diameter and the beacon has an extended height of about 2.15m.

The beacon must be supervised by two competent people at all times when lit and a fire extinguisher must always be available.

Ordering

VE Day 80 Gas-Fuelled Beacon

21CC Group Ltd

The beacon will come ready for easy assembly, designed with a commemorative top and a special anniversary plaque underside. The beacon will burn for approximately one hour using a 13kg standard propane gas cylinder, these are available from most gas stockists and petrol stations around the UK. The gas assembly is easily connected to the burner by a quick release fitting. The beacon is inherently stable; however, we recommend the use of anchors on soft ground or sandbags on hard ground for additional stability. Full set-up instructions are included within the pack and we recommend a trial set-up and lighting before the actual event to familiarise yourself with the set-up and operation. We have included two long-reach lighting sticks so that you can practice lighting the beacon in advance. We would also recommend that a fire extinguisher is available when lighting the beacon and whilst it is burning and that two people are always present.

The VE Day Beacon package contains:

- Assembly, lighting, and safety instructions
- 2m high stand and burner
- 10m hose with the regulator for connecting to the gas
- Two long reach lighting sticks
- Spanner
- Hose
- No additional connections required – all you need is in the box
